

Engage your community

Encourage your local residents to **fight waste through reuse!**

Join the Ontario Reuses network and give your community a **simple online tool** that lets them trade unwanted yet still useful items and materials.

When you join you also get the Recyclopedia - an easy-to-use and comprehensive guide to **local disposal information** customized to your community.

You control it all from behind the scenes with a simple control panel. It's like your own 'instant website' that becomes your **community meeting place** for Reuse and Recycling.

Get set up for free

Your community may be eligible for funding through the CIF to cover your first year set up cost. [Contact Gary Everett](#) of the Emerald Group to find out how to take advantage of this opportunity and get your website provided free of cost.

Put your community on the map!

Join a growing network of municipalities like: Peterborough, Hamilton, Wellington, Kenora, Brockville, Dryden, South Frontenac, Rideau and Sarnia who've already started using Ontario Reuses and the Recyclopedia as tools for community outreach and local waste prevention.
